

## **Case #1: Daughter of Elizabeth Ramsey**

Letter from Elizabeth Ramsey to Dr. Benjamin Rush  
(No Date), Page 1

Sir I gave the Powder (and had my Child  
Bleed last Night) she thro' it up and and  
appeared so extreamly weak that I was ~~afraid~~  
afraid to give the remainder Powder till 11 o'clock  
this morning it operated but three times  
I could not get her to drink to work it off  
her Stomack is so sick, her head is better she  
does not complain of any Pain this afternoon  
But I am alarmed at her fever -  
Dreadfull  
Perhaps I shall loose all that's dear to me this  
side Eternity for want of assistance - she ought  
not to be Bleed again at random without A  
Proper person that could be directed by her Pulse
